Experience

- University of peshawar** 2022 - June 2024
Head of student committee
As the head girl of student committee i was responsible for setting strategic direction and goals of the committee. I was responsible to coordinate various activities and events and this include scheduling meeting , managing budgets , and even seeing logistics. As the main liasion between student committee and university departments i have also represented student body interest in meetings with university officials. Challenges are inevitable in any leadership role . I have handle conflict and solve problem efficiently and diplomatically to maintain a positive and productive environment.
- Kyber Medical University** July2023 - Aug2023
Internship
As it was related to my field this internship help me to improve my lab experimental techniques such as PCR , electrophoresis , ELISA etc. In this i gain a new skill which ik is going to help me in my future.
- Community Emergency Response Team** 2017 - Till now
Team Lead
As a team lead i have many responsibilities in managing or participating in disaster response operations. Understanding of crisis management principles and practices including incident command system and emergency planning. Leadership and Management skills plays a great role in this. As a team leader , decision making and training and development. Main part of this leadership was public communication and community outreach as they both require a good experience.
